Who We Are

MUNDIAL SOLUTIONS LTD is a broad spectra engineering solutions provider. We specialize in Engineering Consulting, Design, Installation facility management for industrial, commercial and residential facilities. We also carry out condition monitoring services using Thermal imaging cameras and power quality analysers. Our clients are mainly industrial and private end-users in the food and beverage industry, oil and gas industry, Telecoms, Original equipment manufacturers (OEMs), Hotels, facility owners and architects.

MUNDIAL employs the same team of highly trained engineers on a project from start to finish. All our projects are executed under the direction of a principal engineer who assumes full responsibility for the project from its inception to completion, thereby providing the client with continuity throughout design, installation and commissioning.

Our Vision & Mission

Vision

To be the best Engineering Solutions Provider in Africa, delivering quality and timely services to our clients in line with current international industrial standards.

Mission

Our mission is to create distinctive value.

We will succeed in business only by creating value for our clients, suppliers and employees, We will build stronger customer relations and create solutions: Explore, Discover, Create, Deliver.

Our Organizational philosophy

Uncompromising reliability and adherence to international engineering standards, enabling our clients to optimize their operations/facilities and deliver their projects within budget, time and to the right standard.

Our Approach

We combine tested and trusted systems with current technology to ensure high-quality, cost-competitive services with total compliance to international standards from simple electrical cable terminations to the complex engineering projects.

This enables our clients to respond quickly to changing market dynamics and increase their competitiveness.

Our approach is to be trustworthy, creative and enterprising. We build customer relationships on integrity. We develop solutions that our customers need. We are forward thinking and action-oriented.

Our Strengths

Our core competences are in the following areas:

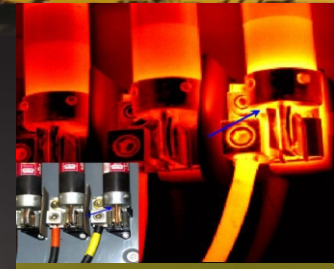

- Design Services
- Installation Services
- Facility Management Services
- Equipment Condition Monitoring
- Electrical Assembly Services
- Projects Management & Consultancy
- Project Documentation Management
- Lighting Design & Installation
- Leasing of Electrical Tools & Equipment
- Power Network Quality Analysis
- Earthing & Lightning Protection
- CCTV & Access Control Systems

At Mundial, we keep tabs on world electrical engineering trends and utilize the best tools and resources (Human & Materials) to carry out tailor made projects designs and installations.

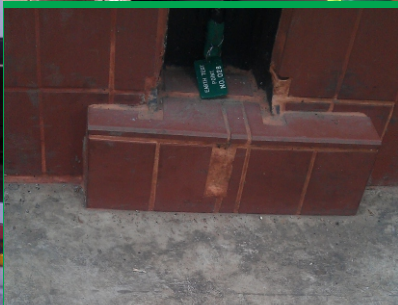

Our Executed Projects

We have designed, assembled and installed electrical power systems and distribution panels for industrial residential and commercial facilities. We have executed indoor and outdoor lighting design and build projects. We have long term contract for facility management services for multi nationals. We have also supported installation projects for various manufacturing firms. This includes the installation of various manufacturing equipment, power generators, refrigeration plants, air compressors etc. We are experts in the field of electrical power cable management employing only the best cable management accessories.

THE COMPANY WE KEEP

1. Janitorial Services
2. Plumbing Services
3. HVAC Services
4. Carpentry Services.
5. Electrical Services.
6. Water Treatment
7. Refuse Management

1. Warehouse Lighting design and installation
2. Installation of Low Voltage distribution panels
3. 1250KVA Transformer installation & commissioning
4. Plant Earthing
5. 1750KVA Generator installation & earthing
6. Office complex lighting and small power
7. Complete electrical installation of new CO2 gas generation plant.

1. Infrared Thermography
2. Power Quality Analysis

1. Infrared Thermography
2. Power Quality Analysis

1. Design of 11kv Power Generation and Distribution Network
2. Electrical generation and distribution network audit and consulting

1. Installation and Service of Ups
2. Infrared Thermography
3. Power Quality Analysis

1. Infrared Thermography and power quality audit
2. Electrical generation and distribution network audit and consulting

Good Food, Good Life

1. Power Quality Analysis
2. Infrared Thermography
3. Earth Loop Impedance Test
4. Supply and Installation of Wireless IP Video Surveillance System & Network.
5. Consulting for lightning and factory earthing.

1. General Electrical Supplies.
2. UPS Design & Installation
3. Earthing & Lightning Protection
4. Infrared Thermography.
5. Low Voltage Electrical Installation.

1. Low Voltage Electrical Works.
2. Infrared Thermography

1. Redesign of Power Distribution network
2. Low Voltage Electrical Installations.
3. Electrical Audit & Consultancy

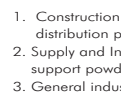

1. Electrical Project Support
2. Electrical Audit & Consultancy
3. Low Voltage Electrical Installations
4. High Voltage Electrical Installations
5. Earthing & Lightning Protection
6. Generator Power & control Installation

Bankers Warehouse Limited®

1. Installation of distribution transformer
2. Installation of lightning and earthing protection
3. Facility Rewiring
4. Power distribution installation
5. Electrical generation and distribution network audit and consulting

1. Construction and Installation of power changeover and distribution panels.
2. Supply and Installation of industrial distribution boards to support powdered milk packaging operations in the Apapa plant.
3. General industrial electrical wiring audit and re-activation

1. Installation of Liquefied Petroleum Gas(LPG) plant at Ekpoma, Edo state

1. Installation of distribution transformer
2. Installation of lightning and earthing protection
3. Facility Rewiring
4. Power distribution installation
5. Electrical generation and distribution network audit and consulting
6. Low Voltage Electrical Works.
7. Infrared Thermography

1. Infrared Thermography and power quality audit
2. Electrical generation and distribution network audit and consulting

1. Janitorial Services
2. Plumbing Services
3. HVAC Services
4. Carpentry Services.

5. Electrical Services.
6. Water Treatment
7. Refuse Management

1. Redesign of Power Distribution network
2. Low Voltage Electrical Installations.
3. Electrical Audit & Consultancy

1. Earthing and lightning arrestor protection
2. Power distribution panels
3. Industrial UPS and inverters

1. Cable tray laying and powering of compressor panel with termination
2. Industrial Lighting installation
3. Electrical System Overall

Jasbert's

1. Installation of distribution transformer
2. Facility Rewiring
3. Installation of lightning and earthing protection
4. Electrical generation and distribution network audit and consulting
5. Power distribution installation
6. Electric security fencing of the hotel premises

1. Infrared Thermography
2. Power factor correction

1. Earthing and lightning arrestor protection
2. Power distribution panels
3. Industrial UPS and inverters

1. Installation of 4.5MVA 33KV/415V Power transformer & general facility earthing protection.
2. Installation of High Voltage Switchgear
3. Installation of plastic injection moulding machines
4. General factory lighting installation

1. Modification/Upgrading of circuit breakers in the Utilities power panel.
2. Construction of Fresh Water pump Motor Control Panel
3. Construction of Water Treatment Plant Motor Control Panel.

1. Construction & Installation of motor control panels.
2. Construction & Installation of Totalizing/ Changeover panels, complete with interlocks & motorized assembly.
3. Construction & Installation of 2X 2000A stand-alone generator circuit breaker panels.
4. Installation of High Voltage Switchgear
5. Installation of plastic injection moulding machines
6. General factory lighting installation
7. Installation of utility machines
8. Electrical generation and distribution network audit and consulting

1. General Electrical Supplies.
2. UPS Design & Installation
3. Earthing & Lightning Protection

1. Installation of High Voltage Cables
2. Upgrade of Lightning & Earthing protection at the Weighbridge

1. Electrical Project Support
2. Electrical Audit & Consultancy
3. Low Voltage Electrical Installations
4. High Voltage Electrical Installations
5. Earthing & Lightning Protection
6. Generator Power & control Installation

1. Infrared Thermography
2. Network Power Quality Analysis
3. Low Voltage Electrical Installations

1. Low Voltage Electrical Works.
2. Infrared Thermography
3. Network Power Quality Analysis

1. Low Voltage Electrical Works.
2. Infrared Thermography
3. Network Power Quality Analysis

1. Warehouse Lighting design and installation
2. Installation of Low Voltage distribution panels
3. 1250KVA Transformer installation & commissioning
4. Plant Earthing
5. 1750KVA Generator installation & earthing
6. Office complex lighting and small power
7. Complete electrical installation of new
